

Project Demo Planning

Date	29 June 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being (HDI Prediction using AI/ML)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the team and explain the problem: difficulty in quickly assessing a country's Human Development Index from raw socioeconomic indicators	2	Spandhana Mondam (Team Lead)
2	Solution Overview & Architecture	Explain the ML-based solution approach — Linear Regression model trained on the Kaggle HDI dataset, Flask backend, and the three-tier architecture	2	Spandhana Mondam
3	Live Demo — HDI Prediction	Walk through the home page, input form, and submit live values to show the predicted HDI score and category in real time	3	Bhagyalatha Kadali
4	Live Demo — Dashboards	Showcase the HDI Score Comparison, World HDI Map, and HDI Trend Over Years dashboards with their interactive Chart.js visualizations	3	Pechetti Lilly Lakshmi Puja Sri
5	Code Walkthrough	Briefly walk through the Jupyter Notebook (data preprocessing, model training) and the Flask app.py routes	2	Bhagyalatha Kadali
6	Q&A and Closing Remarks	Address questions from the mentor/evaluator and summarize key learnings and future scope of the project	3	Spandhana Mondam

Demo Flow Summary:

Step	Activity	Notes
------	----------	-------

1	Introduction & Problem Statement	Briefly state the challenge of interpreting raw HDI indicators and the goal of the project (~2 mins)
2	Solution Overview	Explain the ML pipeline and Flask architecture at a high level, including the dashboard extension (~2 mins)
3	Live Feature Demonstration	Demonstrate HDI prediction with sample inputs followed by all three dashboards (~6 mins total)
4	Q&A Session	Open floor for mentor/evaluator questions; team members respond based on their area of contribution (~3 mins)
